Hi [REDACTED]

Thank you so much for checking in. Yes, please mark those types of issues as "For Further Review". And please let me know if any other questions come up.

Subject: Epstein Relativity Questions

Hi [REDACTED],

I just had a quick question about how to mark a couple of these documents. For some reason USPV00341820-26 were blank. I tried clicking image and extracted text and those didn't help. Also, for the documents USVP00341831-51, skipping some here and there, they said "Browser does not support this multimedia format". I marked all of these "For further review", is this how you want them marked or do you want me to change that to something else?

Thank you,

[REDACTED]
