Yes, good call. I've added both of those, as well as the word passenger. I went through and added a few more terms that came to mind today. Anything else you guys would like to add? I'd like to send this to [REDACTED] over the weekend so that we can get the terms run through the SW returns first thing next week.

Thanks very much. Should we add massage/masseuse?

Attached is a draft list of search terms to run through the devices on Relativity. I've attached the warrant for reference. Any thoughts/additions welcome.

Thanks,
