Thanks [REDACTED]. My inclination is to refer this through our civilian complaint reporting process, the same way our office process any civilian complaints about new criminal activity.

I don't think you want to get involved with this but thought I would bring it to your attention.

No [REDACTED] I am not. These people are engaged in criminal acts, either way I'm still a victim of multiple crimes, a rape survivor and I am alerting you to the fact that these people are hurting people. Why is the us attorney all of the sudden not interested in criminal activity? Either way I need some help here.

The United States Attorney's Office for Southern District of New York does not have anything to do with the compensation fund. All of that was done Civilly. Are you represented by a lawyer.
